

COMMUNICATION BULLETIN

STAGE 3 WATER RESTRICTION

August 10, 2022

The Village of Ashcroft is issuing a **TEMPORARY** (approximately 24hrs) due to one of the water pumps being down. There will be a crane down by the river assisting the Public Works crew to remove the dysfunctional pump so it can be sent away for repairs. A temporary pump will be installed until the repaired pump is returned, at which time, another TEMPORARY Stage 3 Water Restriction will be in effect as the crews reinstall the repaired pump.

During Stage 3 Water Conservation:

Please do not use hose supplied sprinklers or underground automated sprinkler systems to water a lawn, garden or landscaped area on a property.

During Stage 3 Water Conservation Measures, the following uses are permitted:

* Hand watering of flower gardens, vegetable gardens, decorative planters, shrubs or trees.

* Drip irrigation or micro sprinkler irrigation for watering flower gardens, vegetable gardens, decorative planters and shrubs or trees is also permitted.

Hand watering of lawns or grass is NOT permitted.

NOTE: The Bylaw Officer will be out enforcing the water restrictions. If we are unable to maintain adequate water levels for Health & Safety and Fire Protection we may have to impose a Stage 4 restriction. Please help conserve water.

Thank you for your cooperation as we work through this temporary inconvenience.
