# **VILLAGE OF ASHCROFT**

## **1. Introduction**

This Plan is intended for use by all first responders and municipal staff plus members of the Thompson-Nicola Regional District (TNRD) Emergency Preparedness Program in the event of a major emergency in the Village of Ashcroft. The guidelines and procedures included reflect the requirements of the British Columbia Emergency Response Management System (BCERMS) and are consistent with the TNRD Emergency Response and Recovery Plan.

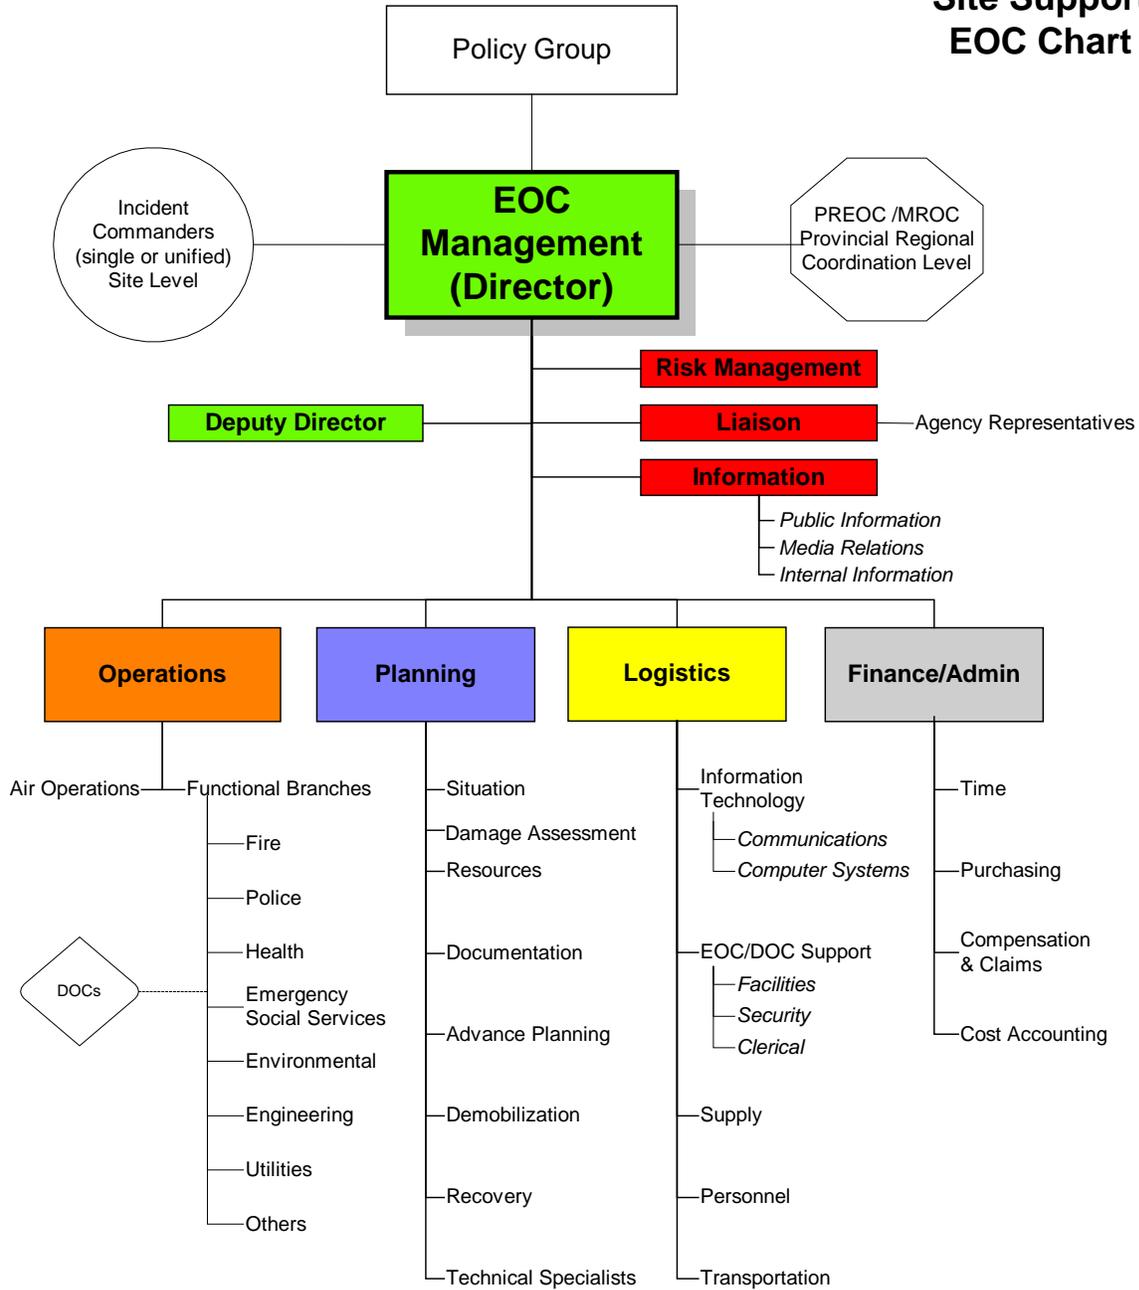

This Plan guides the operations, organization, responsibilities and coordination necessary to provide for effective response to and recovery from major emergencies or disasters in the Village of Ashcroft. It does not address emergencies that are normally handled at the scene by the appropriate first responding agencies such as the Ashcroft Volunteer Fire Department, BC Ambulance Service or RCMP.

It should be noted that there are numerous First Nation communities within the TNRD boundaries. Aboriginal Affairs Northern Development Canada (AANDC) provides the necessary Emergency Management support in all First Nation communities.

## **2. Local Authority for Emergency Response**

The *BC Emergency Program Act* requires local governments to “prepare local emergency plans respecting preparation for, response to and recovery from emergencies and disasters.” The Village of Clinton has the authority to declare a “State of Local Emergency” and order an evacuation, which remains with the Mayor and Council. For larger, complex emergency events that exceed the capabilities or resources of local first responders or the Village of Clinton EOC, the TNRD’s will provide, coordination, resource, planning and logistical support through its Emergency Operations Centre (EOC) located at the TNRD civic Building in Kamloops.

## Site Support EOC Chart

### 3. Response to a Major Emergency or Disaster in Ashcroft

The management of the initial phases of a major emergency is the most critical. Actions and decisions taken early on will dictate the success or failure of response to the event.

When a disaster occurs, it will be up to the Incident Commander to determine whether or not the occurrence will endanger the lives and property of the community. He or she should take account of the services required, making note of the number of injured persons, hazards, and how accessible the area is to vehicles, etc. and proceed as follows:

**3.1** Notify Emergency Management British Columbia Emergency Coordination Centre in Victoria of the event at 1-800-663-3456 (24 hrs/day). The information required includes:

- the name of the person reporting the incident
- the agency reporting the incident
- phone number
- type of disaster
- size of the area involved
- number of people involved
- property involved
- potential additional property involved
- type of access to the area

**3.2** Notify the Village Administrator at 250-453-9161 and the TNRD Emergency Program Coordinator at 250-819-4105

**3.3** The Village of Ashcroft will set up an EOC to liaise with the IC and the TNRD EOC (if required). The Village will also advise the Mayor of the event and that he may be required at the Village EOC.

**3.4** The Incident Commander will keep the Village EOC advised of the situation at the scene of the emergency or disaster.

## 4. Responsibilities During An Emergency or Disaster

### 4.1 Mayor and Council

- Contact the Village Administrator to find out where the EOC is being set up and what assistance they can provide.
- The Mayor may be required to declare a state of local emergency should it be necessary to order an evacuation.

Declarations can be made in two ways:

- The Mayor may declare the local emergency by order for the Village of; or
- The municipal council may pass a bylaw or resolution declaring a state of local emergency.

The declaration document (including the bylaw or resolution) must identify the nature of the emergency and specify the geographic boundaries, preferably on an attached map, within which the declaration will apply.

The declaration must be accompanied by an assignment, by name, of who or what organization can apply the extraordinary powers on behalf of the local authority.

Following the declaration, the Mayor will ensure:

- Step #1** immediately after making a declaration of a state of local emergency, forward a copy of the declaration to the director of the Emergency Management British Columbia (EMBC), who presents the declaration to the Solicitor General.
- Step #2** that the boundaries are clearly delineated by means of a map.
- Step #3** that the authority to exercise the extraordinary powers granted under the *Emergency Program Act* has been delegated in writing to the appropriate persons and/or agencies.
- Step #4** that immediate **published notice** of the declaration in a form that residents of the affected area may learn of the declaration (usually a local newspaper notice).

**Step #5** when necessary to seek the authority of the Solicitor General to extend the term of the declaration beyond seven days, by making application to the director of EMBC. Successive extensions of seven days each may be requested.

**Step #6** to cancel the declaration as soon as the extraordinary powers are no longer needed, **publish** the cancellation, and notify the director of EMBC.

The Village must forward, to the director of EMBC, a signed copy of the declaration, a map designating the geographic boundaries, a copy of any publication notice and a copy of any Delegation Order which designates persons or agencies who can apply the extraordinary powers on behalf of the local authority.

Director  
Emergency Management British Columbia  
Phone: 250-952-4918  
Fax: 250-952-4888  
24/7: Phone: 1-800-663-3456  
24/7: Fax: 250-952-4872  
24/7: Email: preoc3.ops1@gov.bc.ca

The director of EMBC will present the declaration to the Solicitor General, who may alter or set aside the declaration, as authorized in the *Emergency Program Act*.

#### 4.2 Thompson-Nicola Regional District (TNRD)

The TNRD will activate its Emergency Operations Centre (EOC) to the appropriate level of response required to support the Village of Ashcroft EOC. The TNRD EOC will provide planning, logistical, operational and media relations support to the Village.

The TNRD EOC supports a prescribed set of emergency response goals set out as follows:

- Provide for the safety and health of all responders;
- Save lives;
- Reduce suffering;
- Protect public health;
- Protect government infrastructure;
- Protect property;
- Protect the environment; and
- Reduce economic and social losses.

All Action Plans will take these goals into consideration.

#### **4.3 R.C.M.P. - Ashcroft**

A police officer who receives initial notification of a disaster will immediately advise the Detachment Commander. Upon confirmation of a disaster, the Detachment Commander will:

- Notify Emergency Management British Columbia by calling the Emergency Coordination Centre in Victoria at 1-800-663-3456;
- Set up an Incident Command Post at the scene of the disaster

The responsibilities of the R.C.M.P. during a disaster are:

- Preserve and protect life and property;
- Control traffic/crowds;
- Maintain law and order;
- Provide security;
- Provide assistance to the Coroner;
- Carry out evacuation orders;
- Conduct investigations;
- Safeguard evidence; and
- Liaise with the Emergency Operations Centre to ensure adequate manpower, equipment, and other resources are made available as needed.

It is also the responsibility of the R.C.M.P. to coordinate the search & rescue of missing, injured and entrapped persons, however, they should refrain from getting involved in rescue work if other trained, qualified and equipped persons are available to perform this function.

#### **4.4 Ashcroft Fire Department**

The responsibilities of the Fire Department during a disaster are:

- Respond to all requests for aid where fire or other emergencies exist;
- Respond to all requests for aid where life or property are threatened by the existence of a hazardous condition;
- Assist the Ministry and Range Wildfire Management of Forests Branch in structural fire protection;

- The Fire Chief or his alternate may dispatch equipment or personnel to incidents outside the community so long as basic protection for the community is maintained and only with the approval of Mayor and Council; and
- Send a Senior Officer (with a Fire Department radio) empowered to make decisions to the scene to establish a Command Post.

#### **4.5 BC Ambulance Service - Ashcroft**

In the event of a disaster, it is the responsibility of the BC Ambulance Service to:

- Triage, treat and transport casualties from the disaster site;
- Liaise with the Emergency Operations Centre to call out additional resources, as needed; and
- Direct personnel from other agencies called upon for assistance at the site.

#### **4.6 Interior Health Authority (IHA)**

During a major emergency or disaster in the Ashcroft/Cache Creek area, IHA will:

- Evacuate the Ashcroft Hospital if necessary and, if possible, attempt to set up a temporary emergency room (depending on where the event is happening);
- Work closely with BCAS to move patients and local residents in the affected community who may need relocation due to medical conditions. IHA maintains a list of people in their service area with medical disabilities who would require evacuation assistance. Plans are also in place to provide transportation assistance; and
- IHA staff will be involved at the EOC level to provide input on evacuation decisions and logistics.

## **5. Village of Ashcroft Evacuation Plan**

### **5.1 Introduction**

Evacuation is the process of removing persons, domestic animals and livestock from an area that is or may pose a threat to life and limb to an area of safety. Depending on the nature and scope of the threat, an evacuation may involve a single building, a group of buildings or an entire community.

Further to the results of a hazard, risk and vulnerability analysis carried out for the Village of Ashcroft, an evacuation plan has been prepared that identifies the population at risk, the potential frequency and severity of hazards and the process involved in conducting a safe, orderly evacuation.

### **5.2 Process**

As the designated Emergency Preparedness Program Coordinator for the Village of Ashcroft, it is the Thompson-Nicola Regional District's (TNRD) responsibility to identify hazards and be prepared to coordinate evacuations in areas that may be affected by emergency events.

Depending on the event and circumstances, evacuations could be ordered by:

- Province of BC;
- The Mayor and Council for the Village of Ashcroft;
- Office of the Fire Commissioner – for an emergency arising from a fire hazard or from a risk of explosion;
- Ministry of Health or the Local Health Authority;
- Ministry of Environment. The Minister may order or designate a person to order;
- Ministry of Energy, Mines and Petroleum Resources;
- Ministry of Forests, Land & Natural Resource Operations for tactical fire fighting purposes.

An evacuation order may or may not be preceded by a notice or evacuation alert, depending on how much time is available to clear the affected area. After the event and if it is safe to return home, the order is lifted and a public notice issued. The actual evacuation process consists of the following key elements:

- Identifying the population at risk;
- Communicating the evacuation order by way of media announcements, personal contact and delivery of handouts;
- Identifying evacuation routes and modes of transportation available;
- R.C.M.P. enforcing the order and conducting traffic control;
- Identifying assembly point and reception centres for evacuees.

### **5.3 Population at Risk**

The Village of Ashcroft Evacuation Plan has been prepared to include the 52.9 sq km area within the Village of Ashcroft boundary.

The permanent resident population of this area is estimated (2011 census) at 1628 people.

### **5.4 Risk Priorities**

Using a template provided by Emergency Management British Columbia (EMBC) and in discussion with area residents, a Hazard, Risk and Vulnerability analysis carried out for the subject area has identified the following risk priorities:

	<b>RISK</b>	<b>FREQUENCY OF OCCURRENCE</b>	<b>SEVERITY OF IMPACT</b>	<b>DETAILS</b>
5.4.1	Dangerous goods spill	Moderate or likely	High	<ul style="list-style-type: none"> <li>• Highway No. 97C and both railroads are all used for the transportation of large quantities of dangerous goods.</li> <li>• Steep hills, poor weather conditions and increased tourist traffic in summer months could increase accident risk possibilities on area roads.</li> <li>• No oil pipelines in this area, however, there is a Fortis Gas transmission line coming into Ashcroft from Cache Creek. It crosses the river under the Highway 97C bridge.</li> <li>• Area first responders should be well aware of TDG/CANUTEC and RR contact information and procedures.</li> </ul>
5.4.2	Fire – industrial	Moderate or likely	High	<ul style="list-style-type: none"> <li>• The largest industrial facility in the area is the Ashcroft Treating railroad tie plant which produces about 1 million ties annually. Ties are treated with creosote on site. A fire at the plant could send hazardous fumes towards Ashcroft.</li> <li>• Highland Valley Copper reloads copper concentrate in Ashcroft. A rail car fire may require a local area evacuation due to burning sulphur.</li> </ul>
5.4.3	Transport accident – rail	Moderate or likely	High	<ul style="list-style-type: none"> <li>• Both the CP and CN mainlines go through the Village, with about 60 trains each.</li> <li>• About 10% of the cargo is classed as dangerous goods.</li> <li>• Derailment upstream of Ashcroft could affect drinking water quality.</li> </ul>
5.4.4	Transport accident – road	Moderate or likely	High	<ul style="list-style-type: none"> <li>• Area roads receive heavy transport truck traffic. Wide variety of commodities transported.</li> <li>• Daily traffic from Highland Valley Copper hauling copper concentrate to reload facility.</li> <li>• Regular truck traffic hauling supplies up to both Highland Valley Copper and I.G. Machine and Fibres site near Barnes Lake.</li> <li>• Logging truck traffic.</li> <li>• School buses bringing rural students into town.</li> </ul>

	<b>RISK</b>	<b>FREQUENCY OF OCCURRENCE</b>	<b>SEVERITY OF IMPACT</b>	<b>DETAILS</b>
5.4.5	Fire – interface and wildfire	Occasional or slight chance	High	<ul style="list-style-type: none"> <li>• Wildfire hazard within the core area of the Village is low as it is predominantly grassland, however, the total fire protection area does contain forested area subject to wildfires.</li> <li>• A wildfire outside the Village boundaries could threaten the area population and require an evacuation.</li> <li>• Moderate risk of grass fires from R.R. track grinding to remove rust.</li> <li>• High summer recreational use throughout the area increases the chance of human caused fires.</li> <li>• The number of days of high or extreme fire hazard is variable, ranging from 20 in 2005 to 84 in 2009.</li> </ul>
5.4.6	Flood	Occasional or slight chance	High	<ul style="list-style-type: none"> <li>• The Thompson River in Ashcroft does not have a history of flooding the area, even during very high flow years. The bigger concern is the Bonaparte River, which could cause rockslides and landslides enroute from Cache Creek to the Thompson.</li> </ul>
5.4.7	Landslide, debris flow or subsidence	Occasional or slight chance	High	<ul style="list-style-type: none"> <li>• There are areas along the Thompson River both upstream and downstream of Ashcroft where landslides could completely block the flow of the river. Either event would impact the Village and rail traffic.</li> <li>• The Black Canyon area about 10 km downstream of Ashcroft has been identified as a potential slide area.</li> <li>• Minor rockfalls and landslides are a regular occurrence along the river.</li> </ul>
5.4.8	Severe weather	Occasional or slight change	High	<ul style="list-style-type: none"> <li>• Risk of severe winter storms closing highways or rural side roads.</li> <li>• Utilities could be disrupted by winter snowstorms, high winds or summer electrical storms.</li> </ul>
5.4.9	Epidemic – human	Slight Chance	High	<ul style="list-style-type: none"> <li>• Emergency Management British Columbia has updated its Pandemic Influenza Consequence Management Plan in preparation for a possible outbreak.</li> <li>• The BC Ministry of Health Services has primary authority for implementation of the Plan.</li> <li>• Local government liaises with the Province to coordinate local emergency response.</li> </ul>
5.4.10	Explosion or emissions	Unlikely or improbable	High	<ul style="list-style-type: none"> <li>• Orica Canada has a storage facility for explosives and detonators 3 km north of Ashcroft.</li> </ul>
5.4.11	Transport accident – air	Unlikely or improbable	High	<ul style="list-style-type: none"> <li>• Concerns raised by some area residents over the possibility of an event. No details available.</li> </ul>

## 7. Shelters and Reception Centres

Evacuation routing and shelters would be determined by a combination of factors:

- How many people are being evacuated?
- What is the capacity of the Reception Centre for registering and processing evacuees?
- Are the proposed evacuation routes safe for travel?
- How many of the evacuees require shelter and for how long?

Given that there are two main highways leaving Ashcroft, the evacuation would proceed on one of these routes, depending on the event. If only a portion of the Village was being evacuated, the evacuees may be routed to an Emergency Social Services reception centre either in Ashcroft, Cache Creek or Logan Lake. If all residents of Ashcroft were being evacuated, the reception centre would most likely be set up in Kamloops due to the number of people.

Registering with ESS serves two main purposes. First, the evacuee's immediate needs are identified to determine if food, shelter, clothing or other services are required. Second, a copy of the registration form is sent to the Canadian Red Cross who have a 24 hour toll free telephone number that would allow friends and family from across the country to find out if the evacuees are safe.

**PLEASE NOTE:**

**Whenever an ESS team is activated, or if additional resources are required, contact the Emergency Coordination Centre in Victoria at 1-800-663-3456.**

## 8. Evacuation Routes, Distances and Time Considerations

	<i>Distance (km)</i>	<i>Travel Time</i>
Kamloops City Centre to -		
Cache Creek	85	60 min

Ashcroft	95	1 hr 10 min
Logan Lake	50	40 min
Spences Bridge	132	1 hr 40 min
Lytton	168	2 hr 5 min
Ashcroft to –		
Cache Creek	10	10 min
Logan Lake	59	45 min
Spences Bridge	57	45 min
Lytton	93	1 hr 10 min

## 9. Communications

If the evacuation order is issued by the Village of Ashcroft, it would be preceded by the Declaration of a State of Local Emergency, either by Order of the Mayor or a Resolution approved by the Mayor and Council. Once the local emergency has been declared and an evacuation ordered, area residents and visitors **must comply** as the R.C.M.P. may use discretionary powers to enforce the order. Both the declaration of a state of local emergency and the evacuation order will be communicated to area residents by way of:

- Radio and television bulletins;
- Telephone;
- R.C.M.P. contact (if safe to do so);
- Area Search and Rescue Volunteers;
- Face Book & Twitter.

10.9	Search & Rescue	Dispatch through 911

## 11. **Required Actions**

- i) As time will be of the essence should an evacuation be necessary, area residents are encouraged to have a personal emergency preparedness kit prepared.

Depending on the timing of the event, voluntary evacuation may be necessary prior to being officially notified by either the Village or the R.C.M.P.

- ii) Prior to ordering an evacuation, the Mayor and Council of the Village of Ashcroft by Resolution or the Mayor by Order must declare a state of local emergency. A sample declaration is attached. The evacuation order cannot be given until this declaration has been made. For a wildfire event, the Order will generally be issued by the Office of the Fire Commissioner following consultation with the incident commander.
- iii) Once the evacuation has been ordered, area residents must comply as the order may be enforced by the R.C.M.P. They must immediately:
  - Gather up family, pets and personal family emergency kit, including a flashlight and battery powered portable radio.
  - Proceed quickly and calmly to the evacuation reception centre identified in the Evacuation Plan. Evacuees will be registered by Emergency Social Service volunteers who will attend to the food, shelter and clothing needs of those persons moved out of the affected area. By registering at the reception centre, this will also facilitate contact by friends and relatives concerned about their safety.
  - If the evacuation has been ordered as a result of a wildfire or hazardous goods event, do not proceed in the general direction of the event. Ensure that travel proceeds away from the event towards the reception centre. For events such as wildfire or a hazardous materials spill, the evacuation routing will be identified by way of the media or through the R.C.M.P.
  - Ensure that they have not forgotten a personal or medical necessity as travel will be one way only until the evacuation order is lifted.
  - **Remember: Under lawful declaration of a state of local emergency the R.C.M.P. may exercise its discretionary powers to enforce an evacuation order.**

## THE CORPORATION OF THE VILLAGE OF ASHCROFT

### EVACUATION ALERT

An Evacuation Alert has been issued by the Corporation of the Village of Ashcroft at the Emergency Operations Centre in Ashcroft. This is not an order to leave your homes. The threat posed by both the fire, smoke, fumes and risk of explosion have created a potential threat to homes and livestock in the area.

This evacuation alert is being issued to notify area residents of the potential for the threat to escalate and create unsafe conditions, possibly requiring an evacuation order to be issued. Residents may be required to leave this area on very short notice.

Relocation of large animals to higher ground should be considered at this time. This evacuation alert applies to the following areas:

- All of the Mesa Vista subdivision and the downtown core area of the Village of Ashcroft.

This alert may be followed by an order to evacuate, with more updated information. If and when the evacuation order is issued, you must leave your home immediately. A recommended travel route and location of the Emergency Social Services Evacuation Reception Centre will also be issued at that time.

At this time people should also consider removing all valuables and locate the shutoffs for electrical and propane and/or natural gas supplies.

For more information contact: \_\_\_\_\_, EOC Director or  
\_\_\_\_\_, Information Officer

## DELEGATION OF EMERGENCY POWER MATRIX

**Reference: *Emergency Program Act Section 10***

<b>Emergency Powers</b>	<b>Delegated To</b>			
	<b>EOC Director</b>	<b>Deputy EOC Director</b>	<b>Operations Section Chief</b>	<b>Incident Commander</b>
Acquire or use any land or personal property considered necessary to prevent, respond to or alleviate the effects of an emergency or disaster.				
Authorize or require any person to render assistance of a type that the person is qualified to provide or that otherwise is or may be required to prevent, respond to or alleviate the effects of an emergency or disaster.				
Control or prohibit travel to or from any area of British Columbia.				
Provide for the restoration of essential facilities and the distribution of essential supplies and provide, maintain and coordinate emergency medical, welfare and other essential services in any part of British Columbia.				
Cause the evacuation of persons and the removal of livestock, animals and personal property from any area of British Columbia that is or may be affected by an emergency or a disaster and make arrangements for the adequate care and protection of those persons, livestock, animals and personal property.				
Authorize the entry into any building or on any land, without warrant, by any person in the course of implementing an emergency plan or program or if otherwise considered by the minister to be necessary to prevent, respond to or alleviate the effects of an emergency or disaster.				
Cause the demolition or removal of any trees, structures or crops if the demolition or removal is considered by the minister to be necessary or appropriate in order to prevent, respond to or alleviate the effects of an emergency or disaster.				
Construct works considered by the minister to be necessary or appropriate to prevent, respond to or alleviate the effects of an emergency or disaster.				
Procure, fix prices for or ration food, clothing, fuel, equipment, medical supplies or other essential supplies and the use of any property, services, resources or equipment within any part of British Columbia for the duration of the state of local emergency.				

**NOTE: Other individuals/agencies may be included in the matrix at the discretion of the head of a local authority.**

## **CORPORATION OF THE VILLAGE OF ASHCROFT**

### **EVACUATION ORDER – (EVENT DESCRIPTION)**

An Evacuation Order has been issued by Mayor \_\_\_\_\_ of the Corporation of the Village of Ashcroft at the Emergency Operations Centre (EOC) in Ashcroft.

Threat posed by both the fire, smoke, fumes and risk of explosion is threatening homes and livestock in the Village of Ashcroft. Because of the potential danger to life and health, the Village of Ashcroft has ordered everyone to evacuate the following areas immediately.

- **( DESCRIPTION OF EVENT AND AREA AFFECTED)**

If you are in the described area, you must leave immediately and report to the Emergency Social Services (ESS) Reception Centre at the \_\_\_\_\_ . It is also suggested that evacuees turn off the electrical power and gas or propane supplies to their residences.

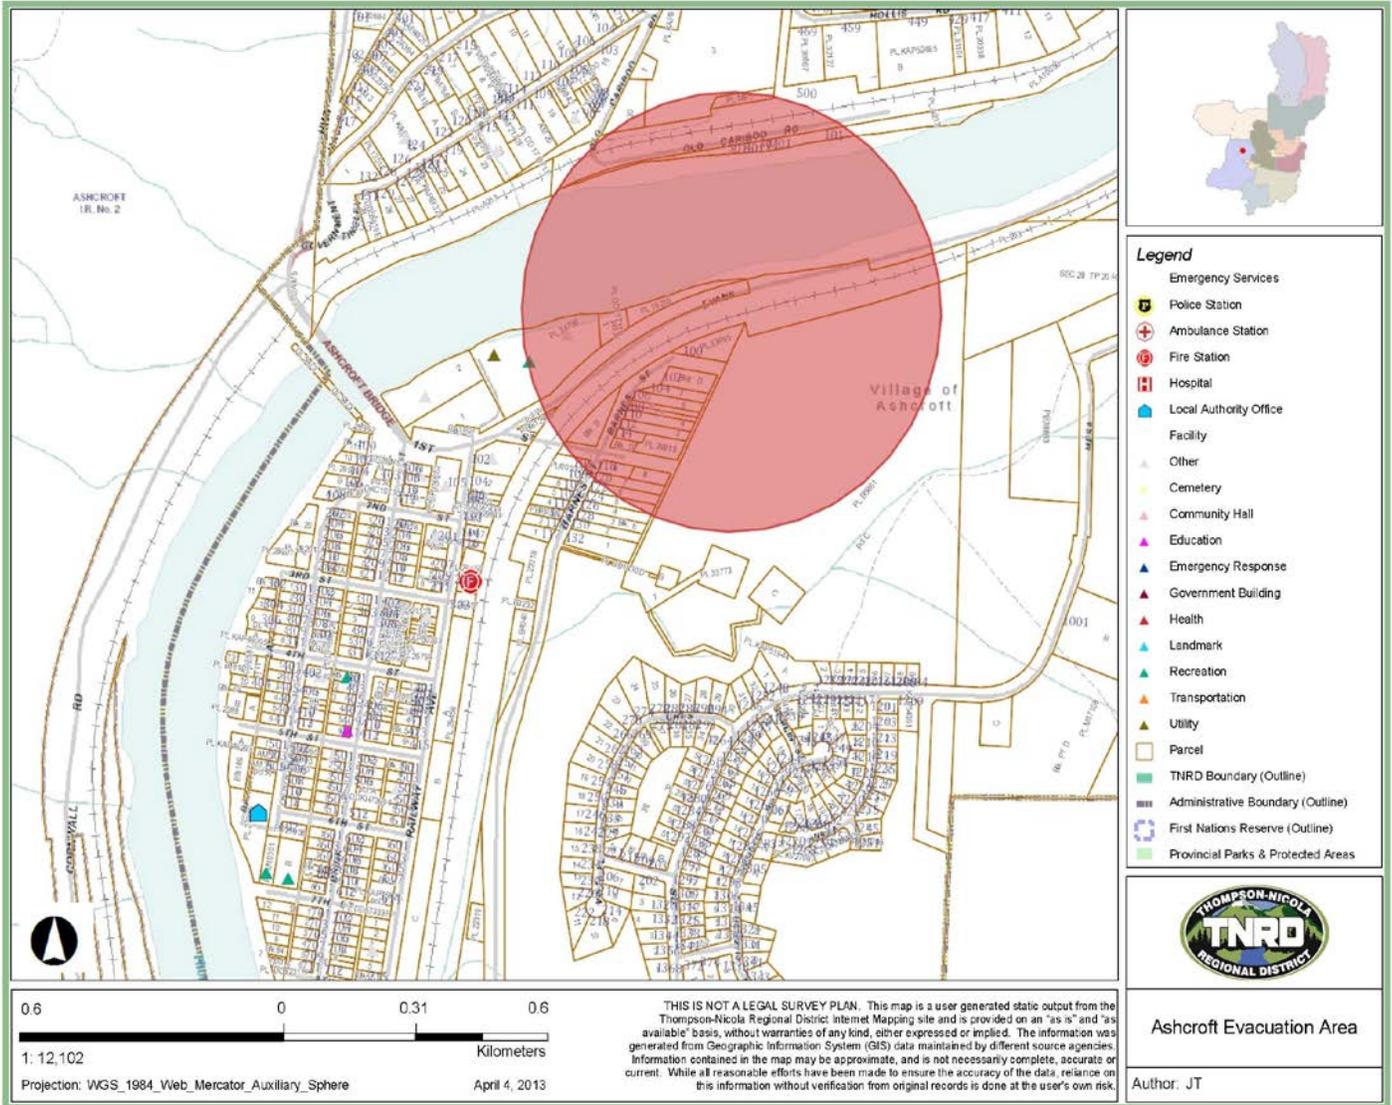

For more information contact: \_\_\_\_\_, EOC Director or  
\_\_\_\_\_, Information Officer

Phone: (250) 453-9161

Date Signed

## VILLAGE OF ASHCROFT

### PREPARING FOR AN EVACUATION

During periods of an extreme fire danger rating, people may be ordered to leave their residences on very short notice and travel to established Emergency Social Services (ESS) reception centres.

- A. Notice of an Emergency Event: people are pre-warned about wildfire activity that may lead to an alert being put in place. People should prepare for an alert by maintaining close contact with family members, gathering insurance papers, valuables and clothing. Residents should monitor local media or listen for other warnings from local officials. There is no immediate need to leave an area under notice unless it is for health reasons, or for someone with transportation difficulties.
- B. When an event escalates to the point where an evacuation may be necessary, there are three stages to the process:
1. **Evacuation Alert** – people are warned of imminent threat to life and property, and are asked to be ready to leave on short notice. Be prepared for worsening conditions. On notification of an **ALERT**, you should be prepared for the evacuation order by:
    - Locating all family members or co-workers and designate a safe meeting place, should an evacuation be called while separated.
    - Gathering essential items such as medications, eye glasses, valuable papers (i.e. insurance), immediate care needs for dependants and, if you choose, keepsakes (photographs, etc.) Have these items readily available for quick departure.
    - Preparing to move any disabled persons and/or children.
    - Moving pets and livestock to a safe area.
    - Arranging to transport your household members or co-workers in the event of an evacuation order.
    - Arranging accommodation for your family if possible. In the event of an evacuation, emergency shelters will be provided if required.
    - Monitoring news sources for information on locations of emergency shelters and evacuation orders.
  2. **Evacuation Order** – you must leave the area immediately. It is imperative that you report to the designated Evacuation Reception Centre. Members of the RCMP will be enforcing the evacuation order.
  3. **Evacuation Rescind** – you will be allowed to return to your home when the danger has passed.

At the reception centres, evacuees can get short-term assistance with lodging, food and clothing if needed. Evacuees are also encouraged to check in at reception centres so friends and relatives making inquiries on the whereabouts of their loved ones can be assured they are fine. People are also advised to contact their insurance company to find out what their policy covers.

Residents should prepare for evacuations by organizing a Personal Emergency Preparedness Kit containing the following items (most of which you may already have in your home):

### **Personal Emergency Preparedness Kit**

- portable radio with spare batteries
- flashlights with spare batteries
- warm blanket
- pre-packaged thermal blankets
- small towel & washcloth
- leakproof container of soap
- toothpaste & toothbrush
- plastic knives, forks & spoons
- snack food & bottled water
- pet food for a couple of days
- first aid kit
- drinking water purifier kit
- multi purpose tool
- candles & matches
- whistle
- toilet paper
- playing cards & pocket books
- list of emergency contact numbers for immediate family members & relatives
- spare eye glasses
- medications
- small amount of cash & coins (for pay phones)
- local maps
- identification documents & other valuable papers (insurance)

**Residents are advised to follow instructions of local authorities and emergency personnel to ensure their safety and are encouraged to stay tuned to their local media for information.**

Information on family and friends who have been evacuated is available from the Red Cross at 1-888-350-6070.

**VILLAGE OF ASHCROFT  
EVACUATION ORDER**

This is Mayor \_\_\_\_\_ from the Village of Ashcroft.

A rapidly moving wildfire east of the Village of Ashcroft has resulted in heavy smoke, airborne particulates and hot embers in the area.

Because of the potential danger to life and health and homes, the Office of the Fire Commissioner has ordered everyone residing in the Mesa Vista subdivision and downtown core of the Village of Ashcroft to evacuate the area immediately. Area residents are requested to travel north on Highway No. 97 to the Emergency Social Services Reception Centre at the Cache Creek Community Hall.

This message will be repeated. Specific instructions and locations for help will be given. If you are in the following areas, you must leave the area immediately and report to the Reception Centre as soon as possible.

The area involved is as follows:

- all of the Mesa Vista subdivision and downtown core area of the Village of Ashcroft.

For more information contact: Mayor \_\_\_\_\_, Village of Ashcroft  
Phone: (250) 453-9161
